Time medication is to be given .....:.....am:pm      Time medication is to be given .....:.....am:pm

Comments or special Instructions.....  
 .....  
 .....

I give permission for my child's medication to be administered in the following way;

- My child can self medicate, and only needs the assistance of one of educator to check dose.
- My child can self medicate and will inform an Educator as soon as possible after administering their Medication, which has been prescribed for a chronic condition.
- My child can not self medicate; I would like 2educators to check dosage and give medication to my child.

Parent Name ..... Parent Signature ..... Date...../...../.....

## Medication Checklist

- **All Medication must be in original container**
- All Medication should be stored out of reach of children (**not locked away**)

Prescribed Medication must have original pharmacy label in tact - check the following information.

- Medication name
- Childs name
- Expiry date
- Dosage information
- Time of dose
- Doctors details

Non prescribed Medication must have original pharmacy label in tact - check the following information.

- Medication name
- Expiry date
- Dosage instructions

Check the following points are recorded

- Time of last dosage administered.
- The exact time medication is administered by ACI staff.
- Medication form is completed by parent and complies with pharmacy instructions on label.
- Dosage checked and administered.
- Dosage administered by staff, who know the child's identity.
- Ensure medication is returned to the area where medication is stored
- Record time and dosage on medication form.
- Are there any recorded reactions that may occur by administering the medication (side effects etc)
- Any additional comments

If unclear on any of the above please consult Medication Administration Policy.
