Proposed Route of excursion: To be determined by bus company, travelling on suitable authorised road

Name of Excursion Coordinator: Rachael Bajo

Number of Children attending excursion: max 57 children

Number of Educators: 8 staff

Educator to child Ratio, including whether this excursion warrants a higher ratio: 1 educator: 8 children

Excursion Checklist: (Please tick off when packed)

- First aid Kit
- List of children attending the excursion
- Medical information for children – Medication for: _____

- List of Adults participating in the excursion
- Contact information for children and adults
- Mobile phone
- Photo Camera
- _____

RISK BENEFITS LINKED TO MY TOP OUTCOMES: -

Play is great for children's well-being and development. When Planning and providing play opportunities, the goal is not to eliminate risk, but to weigh up the risks and benefits.

Outcome 1 – Children have a strong sense of Identity = Through going to the zoo children will be open to new challenges, discoveries and experiences, and be able to confidently explore the environment, assisting us to establish and maintain respectful and trusting relationships with peers and educators. This allows children to '*develop their autonomy, interdependence, resilience and sense of agency*' (1.2) and '*children develop knowledgeable and confident self-identities*' (1.2). Children will be free to express thoughts, feelings and discoveries with peers and educators. It will allow children to spend a large portion of their time with their peers, in a large group situation. This allows children to '*learn to interact in relation to others with care, empathy and respect*' (1.4).

Outcome 2 – Children are connected with and contribute to their world = This excursion will allow children to broaden their understanding of the world in which they live through learning about the animals that we share our planet with, the environment that they live in and what we can do to minimise our impact on them and their habitats. It will allow children to express opinions and engage in discussions that will allow them to investigate ideas, complex concepts and ethical issues that are relevant to their lives and the local community. This will allow '*children to develop a sense of belonging to groups and communities and understanding of the reciprocal rights and responsibilities necessary for active participation* (2.1). In addition to this Children will be able to

'become socially responsible and show respect for the environment' (2.4). The zoo will provide an opportunity for the children to gain knowledge and respect for our natural environment and gain an understanding of the impact that humans can have on other living things. It will allow children to show an appreciation for the natural environment and understand how they can better assist to keep these environments healthy for all living things.

Outcome 4 – Children are confident and involved learners = The Zoo will allow *'Children to develop dispositions such as curiosity, cooperation, confidence, creativity, commitment, enthusiasm, persistence, imagination and reflexivity' (4.1)* as well as allow *'Children to use a range of skills and processes such as problem solving, inquiry, experimentation, hypothesising, researching and investigating' (4.2)*. The venue will provide an environment that is flexible and open ended, allowing children to experience a positive sense of self and sense of belonging, developing confidence that will allow children to experiment and explore new ideas not just at the venue but in everyday life. Children will be involved in a variety of experiences that will allow them to investigate and explore new ideas and physical abilities. Children will be provided with opportunities and skills to demonstrate and develop leadership skills amongst their peers. Children will be able to make choices and take control of activities and experiences that they wish to see and engage in as a group. We will be able to make predictions and generalisations about some daily activities they may undertake and what impact that will have on other living things environments. It will provide children with an opportunity to engage in reflective thinking to consider why things happen and what can be learnt from these experiences.

Outcome 5 – Children are effective Communicators = The Zoo will allow children the opportunity to *interact verbally and non-verbally with others for a range of purposes (5.1)* through providing an opportunity for children that will promote social interaction with one another, and allow interaction with others to share new ideas, contribute ideas and join in small and large group discussions. It will provide opportunities for children to engage in sustained conversation with peers and educators about new experiences and Ideas as well as allow them to convey and construct messages with one another for a purpose, with growing confidence.

Activity/Hazard	Risk (use matrix)	Risk Control	Who	When
Walking to and from bus. → Struck by car/bus on road → Trip on uneven footpath	Low Moderate	<ul style="list-style-type: none"> ✓ Ensure enough adults attending to supervise excursion. ✓ Remain on pedestrian pathways and crossing at all times. ✓ Brief children on rules and behaviour prior to excursion.
