

## Risk assessment and management template – Auburn Reading Cinemas Excursion

Approved providers, nominated supervisors and family day care educators must ensure a risk assessment is carried out before children are taken outside the service premises on an excursion. Prior authorisation must also be obtained from parents or other authorised nominees.

ACECQA has prepared this template to assist services in undertaking risk assessments before children leave the service premises as part of an excursion, which services may wish to incorporate within their own risk assessment material.

Regulation 101 of the Education and Care Services National Regulations includes the minimum risk assessment considerations for excursions, including specific considerations when an excursion involves transporting children.

*Note:* A risk assessment is only required to be completed at least once for a 12 month period if the excursion is a *'regular outing'*.

*\*Regular outing:* means a walk, drive or trip to and from a destination that the service visits regularly as part of its educational program, and where the circumstances relevant to the risk assessment are substantially the same on each outing.

**Describe the procedures for embarking and disembarking the vehicle (include how each child is accounted for in embarking and disembarking):**

Each child will be accounted for when embarking and disembarking the Bus by an Educator marking them off on the Children Signed In and Out of Transport document. The time, name and signature of the person who accounted for the children who embarked and disembarked appears on this document.

When embarking the children will line up at the Bus and as the Educator writes the time and their signature next to the child's name the child will then board the Bus.

When disembarking the children will walk down the Bus steps one child at a time as the Educator writes the time and their signature next to the child's name.

The children will line up in designated area until the process has been completed and the Bus has been checked.

A Head Count will be conducted by other Educators to ensure the number of children disembarking corresponds with the number of children lining up after disembarking.

### **RISK BENEFITS LINKED TO MY TOP OUTCOMES: -**

Play is great for children's well-being and development. When Planning and providing play opportunities, the goal is not to eliminate risk, but to weigh up the risks and benefits.

**Outcome 1 – Children have a strong sense of Identity** = Our excursion to the movies is an opportunity for children to be in the here and now and enjoy the simple joys of being a child and enjoying a movie with their friends and peers. It provides the opportunity for children to relax in a safe and secure environment (1.1). A trip to the movies also allows children to spend time with peers and express emotions, thoughts and views about what they have watched with peers. Movies also provide a great opportunity to reflect on actions of characters on the screen and how it impacts on others and then reflect how this translates in real life, helping children to learn how to *interact in relation to others with care, empathy and respect* (1.4)

**Outcome 2 – Children are aware of fairness** = movies provide an opportunity for children to think critically about fair and unfair environments and an example of how to act with compassion and kindness. With peers and educators they engage in discussions about what they have watched and how stereotypes are portrayed. In these discussion, educators and parents can draw children's attention to the issues faced by the characters in the film and how it translates in their world, providing children with a shared experience to enable them to have a greater understanding of fairness and empower children to make appropriate choices in similar situations (2.2).

**Outcome 4 – Children are confident and involved learners** = The movie excursion will provide opportunities for both formal and informal discussions, with educators and peers, to make connections between concepts presented in the moves and experiences they may find themselves in. This will allow children to reflect on the similarities and differences in situations this and to problem solve various solutions. This will help children to develop new understandings.

Use the table below to identify and assess risks to the safety, health or wellbeing of children attending the excursion, and specify how these risks will be managed and minimised (regulation 101(1)). This must include any risks associated with water-based activities.
